The ultimate sports complex

A Rage Cage is an all ages, all-in-one permanent outdoor sport and recreational complex that is designed to incorporate over ten of the most popular Australian and International sports.

BUILT TO LAST

Proudly designed and manufactured in Australia from solid steel, galvanised and brightly powder-coated. The Rage Cage is virtually indestructible, built to withstand Australia's extreme conditions. It will be standing bright and strong for many years to come.

The entire playing area can be fitted out with a soft-fall surface making it safe for all ages and levels of sporting ability. Rage Cages are utilised more than single use facilities, making them great value for money.

“I cannot recommend the Rage Cage more highly as a means of providing an “indestructible” sporting facility to children of all ages.”

WILTJA RESIDENTIAL PROGRAM

UNLIMITED FUN

All standard Rage Cage models come ready for a diverse range of popular sports. These include soccer, hockey, softcrosse (modified lacrosse), netball, basketball, cricket, rebound tennis, handball, bouldering

(horizontal rock climbing), roller sports and accuracy throw.

“...because of the solid construction it is virtually impossible to break any of the equipment”

CRAFERS PRIMARY SCHOOL

Variations of the Rage Cage are fitted with skate ramps which are suitable for skateboards, in-line skates, scooters and BMX bikes. The huge range of models and sizes means it is suitable for practically any location. All Rage Cage models can also be custom designed to suit individual needs or site constraints. The standard Rage Cage models can be expanded with **SportPLUS**, which include a range of additional activities such as mini-golf, football, volley ball and BMX.

Our Rage Cage **Modules** are perfect if you have limited space or only have need for certain sports activities.

Modules can be used as stand-alone sports equipment, or combined with other modules to create your own unique Rage Cage.

CUSTOM DESIGNS

The following Rage Cage models in this catalogue are only the beginning... all standard models can be customised with your own unique graphics on basketball backboards along with personalised designs incorporated into the optional soft-fall surface. All metal and mesh components can also be powder coated in an almost endless range of colours. We also offer a custom design service so we can build a sports facility to suit any site or sporting requirement.

“... highly robust and well-engineered... the design and colour ensures an atmosphere of fun for adolescents that has been proven to be highly attractive.”

RAGE CAGE 2000

[27x17 metres]

The original Rage Cage which started it all.

Ten sports in one robust and colourful unit.

So good it was included in the Sydney Olympics Athletes village.

When launched in 2000 it set the scene for a revolution in sport and recreational facilities. The **2000** is our second largest model and is ideally suited to councils, parks, schools, resorts and remote communities. The Rage Cage is a unique structure because it offers activities to suit people of any age and sporting ability.

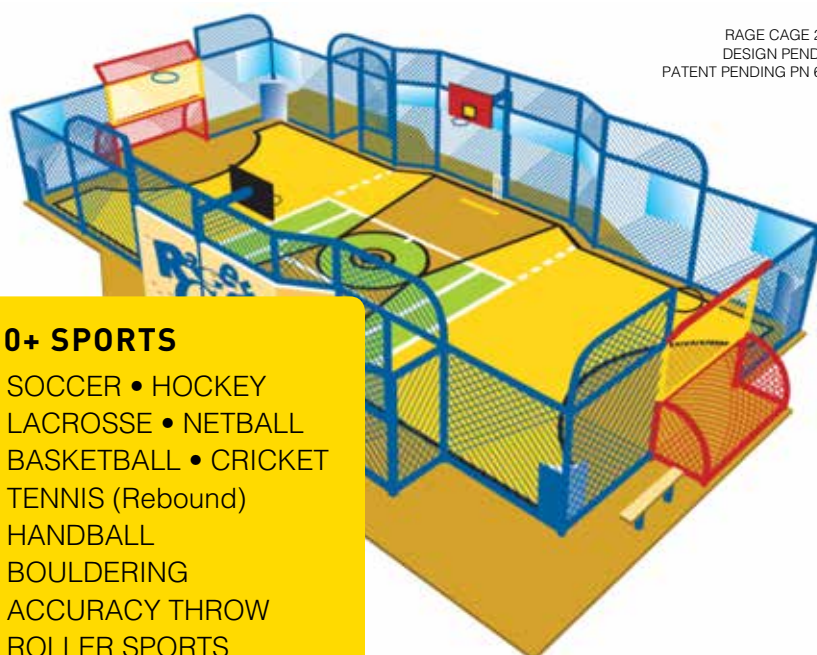

The **Rage Cage 2000** boasts all 10 of our popular sports and as with all Rage Cage units are built to last with powder-coated Australian steel, heavy-

STREET SOCCER

Street soccer is a more free-style variation of traditional soccer and is now played throughout the world. The emphasis on having fun without all the rules and structure of a competitive game. The **Urban** series offers a safe environment away from busy streets, where kids can develop their own skills and modify basic rules to suit themselves. Suitable for all playing levels and age groups, Street soccer is just great fun!

RAGE CAGE Urban Compact

[16.2x14 metres]

The easy access Urban Compact is fantastic for school grounds and metropolitan areas where space or budget is limited.

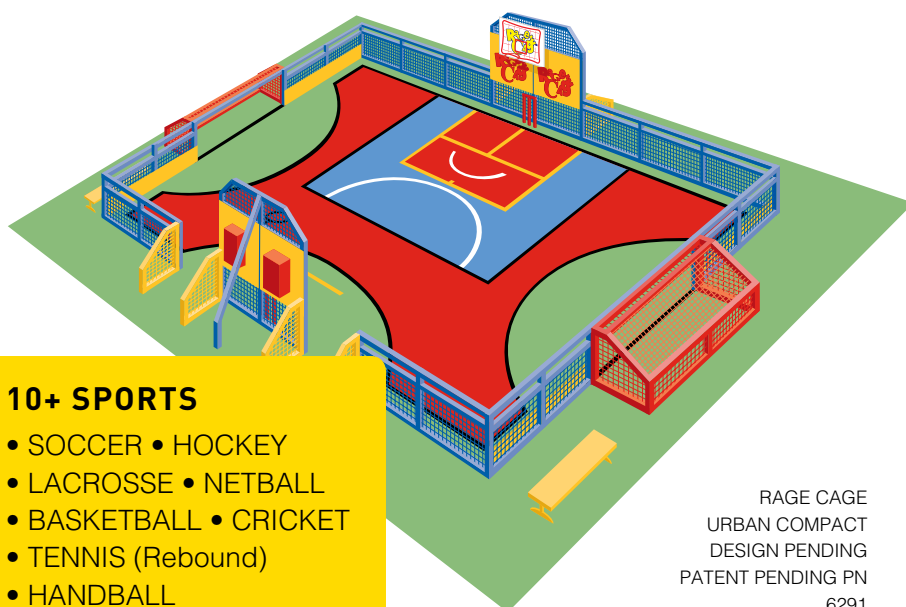

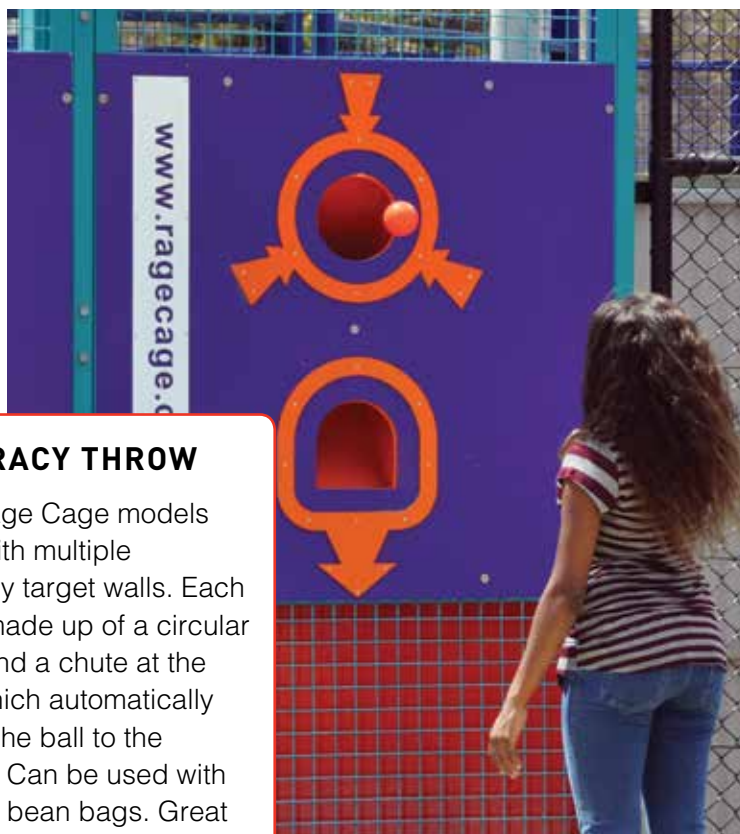

Comprising two full size Rage Cage goals and line markings for full court games of soccer, hockey or softcrosse. This model has court markings and goals for both basketball and netball shooting practice as well as two sets of cricket stumps. The **Urban Compact** is enclosed by 1.4 metre fencing to stop those stray balls but still allows for easy access to the playing area. The compact design of this model makes it the perfect addition to any school yard or community park.

Made tough in Australia

Incredibly robust, the Rage Cage is manufactured by Australian tradesmen, in Australia, using galvanised and powder coated Australian steel.

QUALITY YOU CAN TRUST

All goals, rings and cricket stumps are manufactured and installed to Australian Playground Standards.

Rage Cage only employs reliable and qualified tradesmen to prepare your site and erect your Rage Cage. Once your site is ready, a 125mm thick reinforced concrete slab is poured and the Rage Cage unit is permanently fixed to the slab. Rage Cage units can also be erected on existing concrete slabs, for example a disused tennis or basketball court. The complete Rage Cage unit is manufactured off-site and delivered in pre-fabricated sections to your site. It is then installed by our tradesmen, usually within 14 days. Once the installation is complete the optional soft-fall surface is applied to the entire playing surface... then it's game on!

“I love what the Cage has brought to the school and would heartily recommend it to any school as a very useful and worthwhile tool.”

CRAFERS PRIMARY SCHOOL

ANY LOCATION

The range of Rage Cage models and sizes mean they are suitable for practically any location... from schools, community centres and parks to remote and rural communities. Rage Cage can also be transported in pre-fabricated sections for installation anywhere in the world. Currently there are more than 24 Rage Cages across Australia and New Zealand.

“I would highly recommend this Fun Pack. Your Community is sure to love it.”

Pickleball [SOLID NET]

[16.7 x 9 metres]

Pickleball is the latest sensation to hit America and Canada.

Now you can enjoy the fast-growing sport in Australia with the Rage Cage court and virtually indestructible solid net.

Pickleball combines the best elements of several court games, creating a sport that is hugely popular with young children, families and schools.

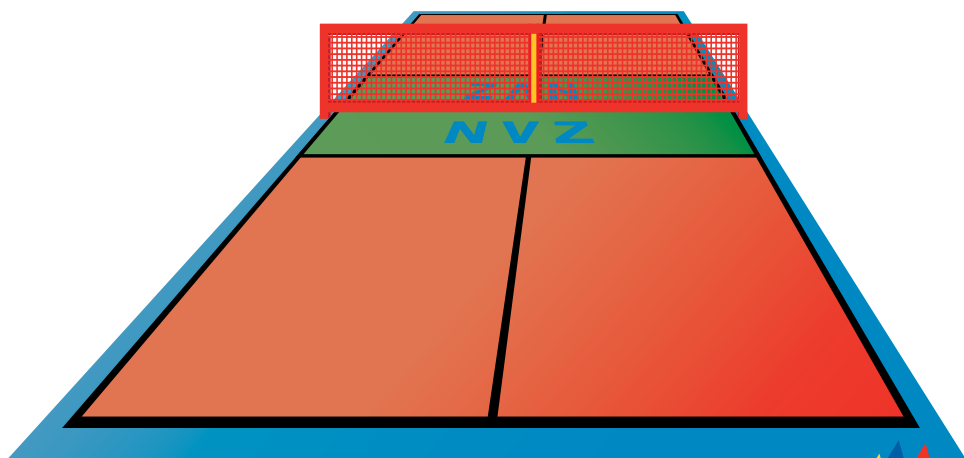

The Pickleball court is similar to that of badminton and includes a 'no volley zone' at the net. The basic rules are quick and easy to learn and the game features a very simple scoring structure.

PICKLEBALL
Pickleball is a paddle sport that combines basics of badminton, tennis, and table tennis. Two, three, or four players use solid paddles to hit a perforated polymer ball over the net. Pickleball was invented in the mid 1960s as a children's backyard pastime but has become one of America's most popular growing sports for all ages and abilities.

Outdoor Table Tennis

[7 x4 metres]

The Rage Cage Table Tennis is designed to cope with Australia’s harsh weather conditions.

The solid construction all-weather poly-carbonate table combines with a permanent solid steel net, so you can play virtually anywhere.

This permanent structure is great for school playgrounds, public parks or social clubs.

The table is regulation size and comes standard with a under-table large lockable compartment.

Rage Cage can transform your tired and outdated school facilities into an exciting and colourful multi-sports complex. Create active areas throughout your community that everyone will want to use.

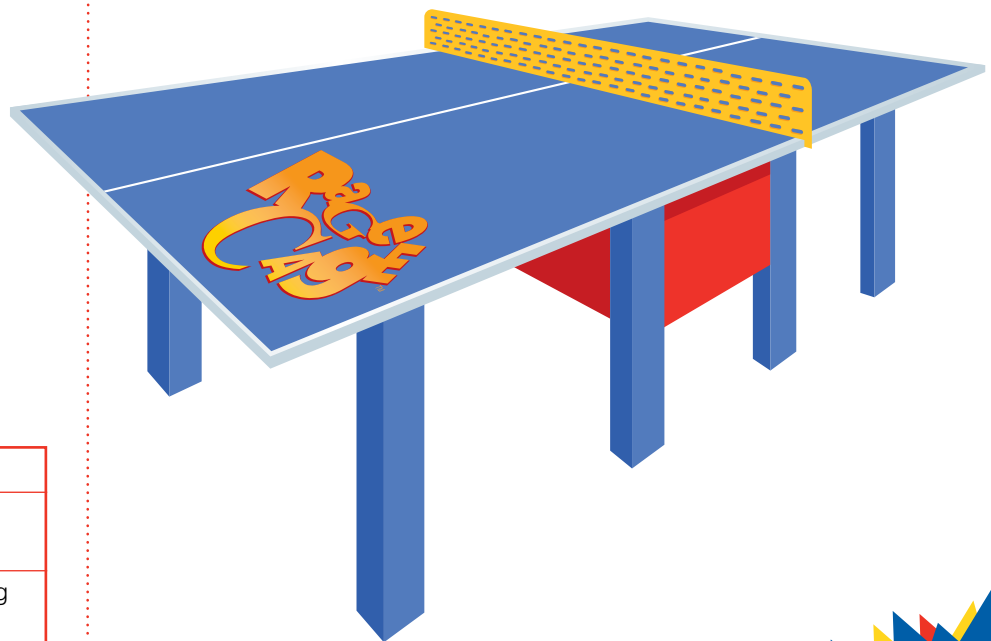

TABLE TENNIS

Table tennis, also known as ping pong, is a sport in which two or four players hit a lightweight ball back and forth across a table using small solid bats. The game takes place on a hard table divided by a net. Play is fast and demands quick reactions. Hugely popular world-wide, table tennis has been an Olympic sport since 1988, but is great fun for even the most novice player.
